

Architectural Technologist Degree Graduate - Nottingham

We are seeking a motivated and dedicated Graduate Architectural Technologist to join our team.

This is a fantastic opportunity for a Graduate Architectural Technologist to join our established Architecture team, working as part of a team on a diverse portfolio of exciting projects across a range of sectors throughout the UK. You'll have the opportunity to contribute to projects at different stages of the design and delivery process, developing your design and technical skills while working alongside experienced architects and other built environment professionals.

YMD Boon is a multi-disciplinary construction consultancy with over 60 years of combined experience in architecture, building surveying, and health and safety, underpinned by the longstanding expertise of our founding practices. With offices in Market Harborough, Nottingham, Lincoln, and Birmingham, our established presence enables us to support clients nationwide.

The Role:

As an Architectural Technologist Graduate you will assist with the design, technical development, documentation and delivery of building projects from initial concept through to construction. The role combines architectural design knowledge with technical expertise in construction methods, materials, building regulations, environmental performance and digital design.

You will be:

- Assist in preparing detailed architectural drawings and specifications using REVIT and AutoCAD software.
- Ensure compliance with building regulations, planning permissions, and safety standards.
- Stay updated on industry trends, materials, and technologies.

Key Skills and Experience:

- BSc or BA in Architectural Technology, or related discipline like Architectural Design Technology.
- Ability to produce accurate plans, elevations, sections and construction details
- Knowledge of CAD software (e.g., AutoCAD, Revit).
- Strong understanding of building regulations and planning policies in the UK.
- Creative problem-solving abilities and attention to detail.
- Excellent communication and teamwork skills.
- Experience with sustainable design practices.
- Full UK driving licence.

Desirable:

- Familiarity with BIM (Building Information Modelling) is advantageous.

Package:

Work-life balance is key to effective and sustained service delivery. We encourage staff to engage with charity, sports, and community and company events. We have a communication ethos which is responsive to each member of staff and their needs. All our staff are valued equally, and we maintain a flexible approach to developing your skills, encouraging career development and addressing personal needs.

We offer competitive salaries respecting your skills and experience in addition to the following:

- Contributory pension scheme
- 21 days' annual leave plus Bank Holidays
- Birthday's off!
- Additional discretionary Christmas leave each year (usually between 3 and 5 days)
- Life assurance
- Health cash plan
- High street discounts
- Health and wellbeing support
- Subsidised social events
- Private office car parking

The role is full-time hours Monday to Friday with a degree of flexibility.
